

SAFETY IS A STEP AWAYSM

Traction Plus® Green Building Line Slip Shield® Traction Treatment and Floor Maintainer (GB-100)

- Environmentally-friendly formula.
- Simple, do-it-yourself safety treatment and cleaner all-in-one.
- Safely penetrates the floor's natural pores to release slippery film caused by ground-in grease, soap, and mineral deposits.
- Replaces your existing floor cleaner for daily maintenance.
- Non-corrosive formula will not harm the surface or grout.
- Contains biodegradable surfactants.
- Contains no NPE, phosphates, solvents, or butyls.
- Very low VOC—no unpleasant odor—can be used in day cleaning.
- Concentrated, dilute on-site to reduce waste and shipping costs.
- Traction Plus Proportioners* deliver a premixed solution which minimizes waste and eliminates daily contact with chemicals.

Traction Plus Green Building had been certified as a “High Traction” product by the National Floor Safety Institute

*Not recommended for polished marble surfaces. Test on a small area for compatibility.

**Natural surfaces include commercial grade glazed and unglazed ceramic tile, quarry tile, glazed and unglazed porcelain, terrazzo, saltillo tile, and concrete.

ALWAYS wear protective hand and eye wear, and slip-resistant shoes when using these products.

*Traction Plus Proportioners sold separately.

PRODUCT

TRACTION PLUS GREEN BUILDING LINE, FLOOR SAFETY CLEANER AND MAINTAINER
PRODUCT NO. GB-100

DESCRIPTION

Traction Plus GB-100 is a water-soluble, biodegradable, green surfactant that safely penetrates the pores of commercial grade ceramic and quarry tile and dissolves the slippery film caused by dirt and grease buildup. Traction Plus GB-100 cleans and increases the slip resistance in one simple step. GB-100 will enhance the natural appearance of the floors without leaving behind a hazy build-up.

NOTE: For MSDS information, please access the website at www.tractionplus.com.

DIRECTIONS

**ALWAYS WEAR GOGGLES, GLOVES AND SLIP RESISTANT SHOES
WHEN USING THIS OR ANY FLOOR CLEANING PRODUCT**

FOR SAFETY TREATING QUARRY TILE FLOORS

STEP 1: Read directions carefully before using. MAY DULL HIGH GLOSS FLOORS. TEST FIRST ON A SMALL AREA.

STEP 2: Sweep the floor thoroughly.

STEP 3: Wearing slip resistant shoes, damp mop the floor using clean water.

STEP 4: Pour Traction Plus GB-100 into a clean, empty mop bucket. NOTE: DO NOT ADD WATER.

STEP 5: Using a clean damp mop, apply Traction Plus GB-100 liberally to the area to be treated. (Do not wring the mop.)

STEP 6: Vigorously brush the floor with brush to loosen the soil buildup. NOTE: DO NOT ALLOW THE FLOOR TO DRY.

STEP 7: Pick up dirty solution and thoroughly rinse with clean water, changing rinse water frequently.

STEP 8: Properly dispose of dirty solution and the Traction Plus GB-100 container when empty.

FOR DAILY MAINTENANCE

STEP 1: Sweep the floor thoroughly.

STEP 2: Combine Traction Plus GB-100 with water according to the type of soil level:

SOIL TYPE	OZ/GAL	DILUTION
LIGHT	2 OZ.	64:1
MEDIUM	4 OZ.	32:1
HEAVY	6 OZ.	16:1

STEP 3: Wearing slip resistant shoes, mop the area using the Traction Plus GB-100 solution.

STEP 4: Rinse the floor thoroughly with clean water if necessary. Allow to dry.
